DETAILED ACTION

Allowable Subject Matter

Claims 1-10 and 12-24 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for ensuring efficient usage of processing resources in a reporting system. Each independent claim identifies the uniquely distinct features of "assigning each of the multiple incoming jobs a plurality of priority values; and servicing each of the multiple incoming jobs based on the plurality of priority values assigned to each of the multiple incoming jobs and on a non-random servicing scheme, wherein the servicing of each of the multiple incoming jobs includes scheduling each of the multiple incoming jobs for servicing at a later time". The closest prior art, Kling et al (US 6,66,2,203) discloses a conventional system for prioritizing service requests that fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
